Standards of Permit:

1. If any gear requiring a vessel is listed, such as an otter trawl, the vessel must be listed on the permit.
2. If you are targeting any species managed commercially or recreationally, exact species and estimated number of collections must be specified. No sharks may be collected without a special permit.
3. A copy of your collection permit must be available for presentation by any designated project personnel to any Police Officer, during all phases of collection activities.
4. A copy of any **activity report or results** from your project must be submitted to the VMRC annually.
5. All bycatch and incidental catch must be returned to the water immediately after collecting the necessary information.

“I certify under penalty of law that the information submitted in this application is to the best of my knowledge true, accurate, and complete. I agree to the permit conditions provided on this application and to any additional conditions on my permit. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.”
