The 2013 commercial offshore quota allocation was 2,438,592 pounds. Virginia landings through October 16 total 1,946,208 pounds. The available remaining offshore summer flounder quota is projected to be 650,000 pounds.

- The cumulative landing limit for the Directed Fishery is 10,000 pounds in each 15-day landing period. The first 15-day landing period will begin November 11, 2013, and end November 26, 2013. Subsequent landing periods will be subject to quota availability.
- It is unlawful for any vessel to land in Virginia any amount of summer flounder more than once in any consecutive 5-day period.
- Only vessels holding a valid Virginia Summer Flounder Endorsement License may possess summer flounder.
- It shall be unlawful for a licensed seafood buyer or federally permitted seafood buyer to fail to contact the Marine Resources Commission Operation Station (757-247-2265 or 1-800-541-4646), prior to a vessel offloading Summer Flounder harvested outside of Virginia. The buyer shall provide to the Commission the name of the vessel and its captain and the anticipated or approximate offloading time.
- Once offloading of any vessel is complete and the total weight of the landed Summer Flounder has been determined, the buyer shall contact the Marine Resources Commission Operations Station and report the vessel name and corresponding total weight of Summer Flounder landed.
