DESCRIPTIVE TITLE OF PROJECT: Fourth Annual VCBA Youth Fishing Adventure Day													
PROJECT SUMMARY: The day starts with detailed educational topics taught by the individual Boat Captains. The topics range from Basic first aid, boat safety, Fishing Rules and boat navigation. We depart the Marina and each scout is coached on how to fish with their own fishing rod and reel. Our day concludes with a picnic lunch and the awarding of the prizes for the Essay's. This years Essay topic deals with what each individual can do to improve the Bay. This year's goal is to take 200 Boy and Girl scouts and their chaperones for a day on the Bay.													
EXPECTED BENEFITS: We are hoping to instill a deep appreciation of Virginia's abundant natural resources and the important roll each person has in protecting those resources. We use current information available from the state to educate each scout. We try to use the fishing rules to connect the adherences to these rules to protecting the environment. We try by example to demonstrate that we operate our Charter business in full compliance with the rules to protect the environment and provide a safe fishing experience. Our Hope is even if all will not continue to fish all will respect and preserve the environment.
