"PERTAINING TO SPECKLED TROUT AND RED DRUM"
CHAPTER 4VAC20-280-10 ET SEQ.

PAGE 1 OF 3

PREAMBLE

This chapter establishes minimum size limits for the taking or possession of speckled trout and red drum (channel bass) by commercial and recreational fishermen. The minimum size limits will protect the spawning stocks and increase yield in the fishery. This chapter is designed to assure that Virginia is consistent with all federal and interstate management measures for speckled trout and red drum. In addition, this chapter establishes a commercial landings quota for speckled trout. The goal of these management measures is to perpetuate the speckled trout and red drum resources in fishable abundance throughout their range and generate the greatest possible economic and social benefits from their harvest and utilization over time.

This chapter is promulgated pursuant to authority contained in §28.2-201 of the Code of Virginia. This chapter amends and re-adopts, as amended, previous Chapter 4VAC20-280-10 et seq., which was adopted August 25, 2015, and effective September 1, 2015. The effective date of this chapter, as amended, is September 1, 2018.
