

**"AUTHORIZES SHELLFISH AQUACULTURE STRUCTURES"**

**CHAPTER 4 VAC 20-335-10 ET SEQ.**

**PREAMBLE**

The Commonwealth of Virginia has a long history of leasing State-owned submerged land for private shellfish culture and recognizes the potential economic and environmental benefits associated with increased shellfish production.

In recent years, some shellfish growers have begun using low-profile structures such as nets, trays and cages to provide additional protection for the shellfish placed on their leased ground.

This chapter authorizes shellfish aquaculture structures that may be placed on and immediately above privately leased shellfish grounds without an individual permit from the Habitat Management Division of the Marine Resources Commission.

This chapter is promulgated pursuant to the authority contained in §28.2-103 and §28.2-201 of the Code of Virginia. This chapter amends and re-adopts, as amended, Chapter 4 VAC 20-335-10 et seq. which was promulgated November 25, 1997 and made effective January 1, 1998. The effective date of this chapter, as amended, is January 1, 2016.
